

*I went to the woods because I
wished to live deliberately, to
front only the essential facts of life,
and see if I could not learn what it had
to teach, and not, when I came to die,
discover that I had not lived.*

—Henry David Thoreau

Heckrodt Wetland Reserve includes 76 acres of forested wetland, wetland meadow, open water, and upland field communities. There is a wheelchair and stroller-friendly 3+ mile trail system, much of which is boardwalk, allowing access to the wetland without getting wet feet! The Reserve is home to a variety of mammals, birds, insects, reptiles, and amphibians. Facilities include a nature center with indoor living wetland and live reptiles, amphibians, and fish as well as mounted specimens of Wisconsin mammals and bird species. Educational programs are provided for schools, daycare centers, special focus groups (pre-school, grade school scouts, and senior citizens), and the general public. Our goal is to provide visitor education while fostering an ethic of environmental stewardship in a fun, hands-on atmosphere.
