

Eco-Explorers Super Pollinators: Nature's Tiniest Superheros is a program developed for youth entering 4th -6th grade.

Children will explore pollinators and why they are so important in our ecosystem. This hands-on, interactive camp will allow children to explore a working honeybee hive, visit a local butterfly house, touch a butterfly and more. Youth will also participate in hands-on projects (planting pollinator plants, building Pollinator Bug Hotels) that will help conservation of our tiniest pollinating superheroes.

Come join us to explore our tiniest superheroes in WI!

Snacks will be provided for this program, but youth must bring a bag lunch each of the 3 days of summer camp.

The program fee is \$70.00 per individual and covers all materials.

For more information, or to register, please call (920) 720-9349.

Registration materials may be downloaded from our website at www.heckrodtnaturecenter.org

Super Pollinators:

Nature's Tiniest Superheroes

For youth entering

4th-6th grade

July 12-14 or July 26-28, 2022

Super Pollinators: Nature's Tiniest Superheroes...

We've designed this NEW camp focusing on our amazing pollinators. Youth will explore pollinators and why they are so important in our ecosystem. This hands-on, interactive camp will allow children to explore a working honeybee hive, visit a local butterfly house, and touch a butterfly. Come explore our tiniest superheroes in WI!

Tuesday, July 12 or July 26
9 AM—3 PM

We will explore why pollinators are nature's smallest superheroes and what role they play in our ecosystem. We will then travel to the Butterfly Gardens of WI in Appleton. There where we will explore the life of the Monarch, as well as see other native butterflies, walk the butterfly maze, and much more!

Wednesday, July 13 or July 27
9 AM—3 PM

Honeybees and other bees will be the focus of this action-packed superhero adventure. We will visit the "Heckrodt Hive", learn about beekeeping and sample some Heckrodt honey. We will also find out about Mason bees and build a "pollinator hotel."

Thursday, July 14 or July 28
9 AM—3 PM

Today's superhero adventure will have us learning more about the role of butterflies as pollinators. Make a pollinator seed ball, insect sweep to look for pollinators, and explore the prairie searching for Monarch butterflies and their caterpillars. We will also have an opportunity to plant some pollinator host plants at Heckrodt and many more superhero adventures!

About Your Day Camp Experience at Heckrodt Wetland Reserve...

Appropriate dress

- Long pants or appropriate shorts are recommended, as well as sturdy footwear.
- Please bring insect repellent and sunscreen.
- We will be prepared to do the program in rainy conditions. Please bring rain gear if the forecast is inclement.

Parents:

- All HWR programs have implemented Covid-19 CDC recommended safety protocols.
- Please complete Eco-Explorers Registration Form/Health and Authorization on our website. <https://heckrodtnaturecenter.org/>
- *Please be sure to sign your child up for the appropriate session based on the grade they will be entering in the fall. NO EXCEPTIONS WILL BE MADE! Children enrolled in sessions designed for ability levels above or below them require more attention from staff and present an unfair situation to the rest of the children.*
- **Campers are not registered until payment is made and all forms submitted.** We will notify you if the class is full or if we need to cancel.
- Confirmation information will be sent via e-mail 2-3 weeks prior to your child's session. Included in this information will be a Covid-19 Liability Waiver, which is to be filled out, signed, and brought with your child on the first day of the session.
- **Pre-payment is required and must be made at the time of registration. We are waiving the \$15 non-refundable handling fee this year in the event you must cancel. You may receive a refund if cancellations are made less than five business days before session begins and is due to illness of child or close contact.**
- If your child is late for camp, it is the parents' responsibility to get him/her to the proper location.
