

Rain Garden Workshop

Saturday, March 25th

1:00-3:00 p.m.

\$25 per Household

Registration & Pre-payment Required

Participants will have the opportunity to learn...

- The importance of rain gardens and native plants
- Where to install a rain garden
- How to interpret site slope and soils
- How much water your site is managing
- What native plants are the best for your rain garden
- Take home copy of WI DNR Rain Garden Guide
- Each participant will receive a voucher for live plants to be picked up later in the spring!
