

Heckrodt Wetland Reserve

Field Trip Social Story

I am going on a field trip to Heckrodt Nature Center with my class.

This story will help me learn about what we will be doing and
some of the people we will meet.

We will follow our teacher's instructions for getting off the bus.
Then, we will walk and sit on the big rocks
in front of the Nature Center.

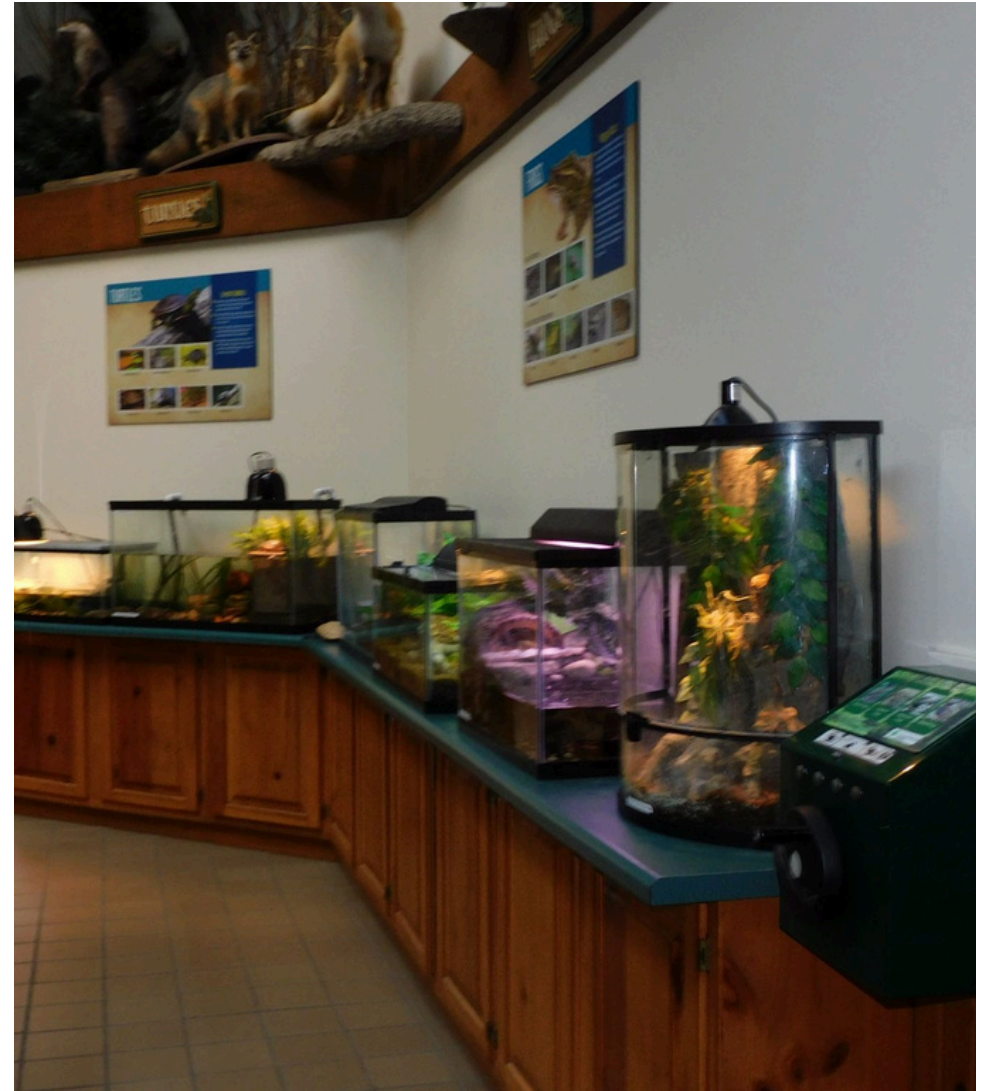

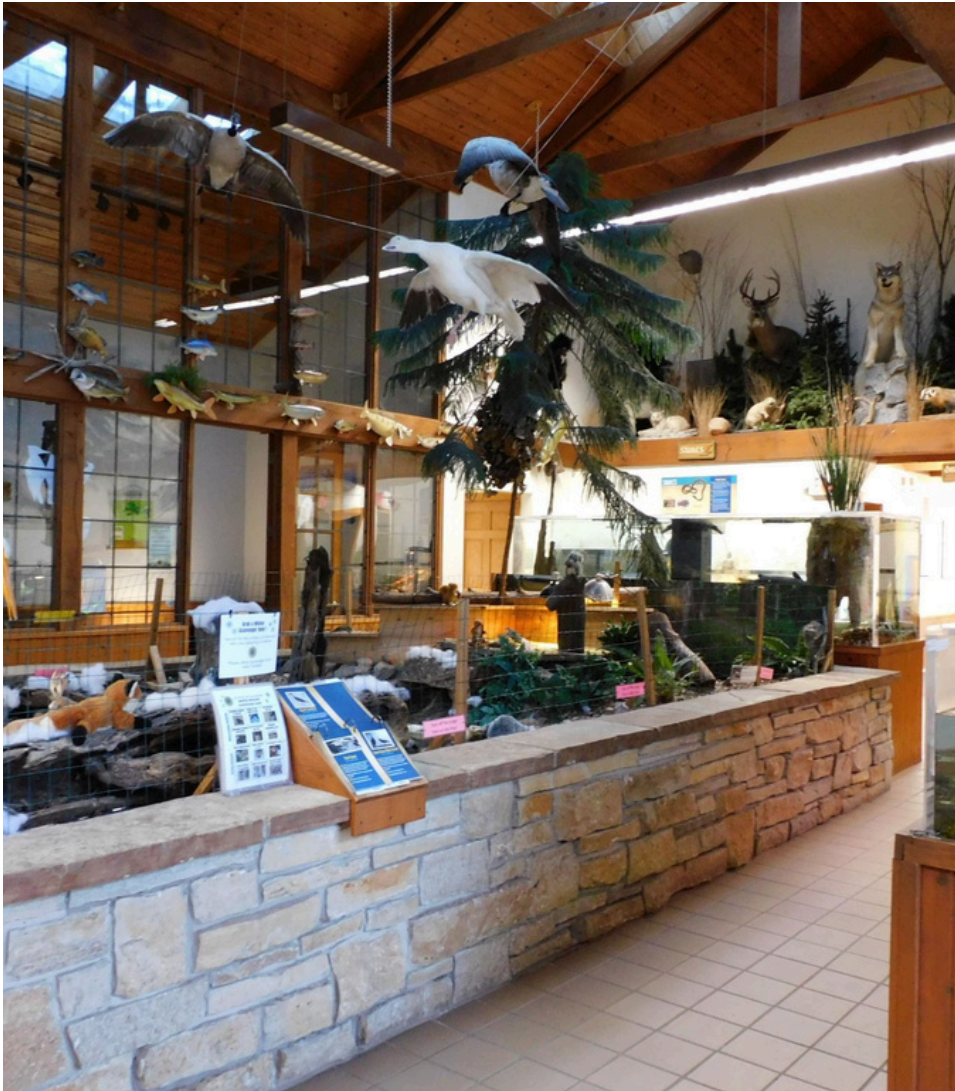

Miss Andrea

Miss Maddie

When we arrive, we will be greeted by a naturalist.
They will be our teachers/guides during our field trip.

We will look around the nature center.
There is a lot to see inside the nature center.

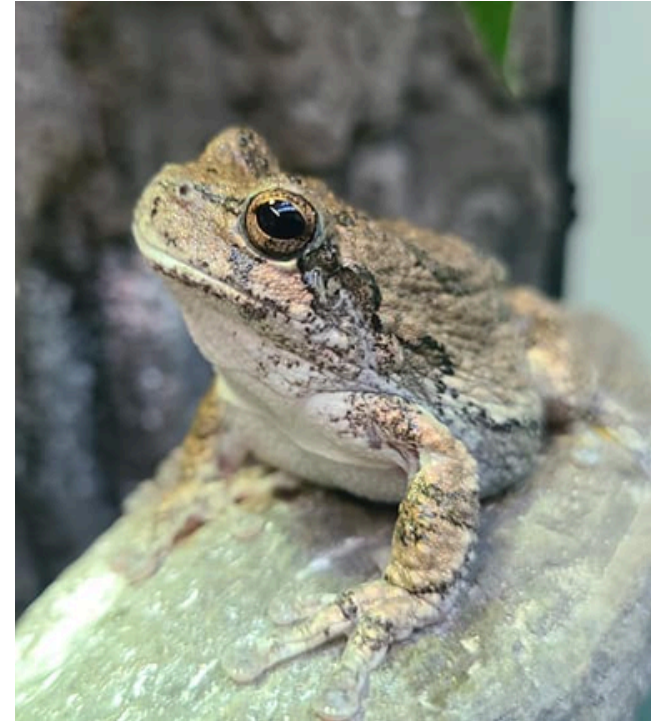

I do not want to scare the animals that live at the Nature Center

I will use my
walking feet

I will talk quietly

I will not touch the
tanks that the
animals live in

We will go into a classroom. The naturalist will talk to us about animals.

I will sit on my square and raise my hand if I have a question.

On our field trip, we will go on a hike with a naturalist. I will be a good listener when they are talking. I will stay on the path when we are hiking. Hiking is a fun way to see nature.

We might see some animals on our hike. I will be quite and look with my eyes. Nature is the animals home

My hands may get wet and dirty while we explore.

If I need to go to the bathroom there is one inside the Nature Center.

If we are good listeners we will get time at the playground

At the end of our field trip, I will get back on the bus and return to my school.

**I will have a fun time at
Heckrodt! Knowing what to
expect helps me have a fun time!**
